You raise a good point, let's keep it and Grace can walk through this approach. Easier that way.

Rusty – can you start the meeting. I just found out I have to be on an OPP PREP course for SLA folks for 15 or 20 minutes at the beginning – PFAS in containers issue.

Thx

I'm fine with that. The one thing I didn't know is whether you wanted Grace to present her approach to the larger group to get buy in or just use the time to apply it to the new set (being aware of the time constraints).

Am thinking cancel the 1PM today given the data discussion yesterday and the approach we just talked about for Grace.

Seems like everyone has stuff to do to push this ahead.

Thoughts?
